

Sustainable

Certified Sustainable Palm Oil

Palm oil production has increased to meet the edible oil needs of a growing world population resulting in environmental pressures.

In response to the urgent and pressing global call for sustainably produced palm oil, the **Roundtable on Sustainable Palm Oil (RSPO)** was formed in 2004 with the objective of promoting the growth and use of sustainable Palm products through credible global standards.

Global Agri-trade is taking another major step in its commitment to be a supplier of RSPO certified sustainable palm oil (CSPO) products in North America with the addition of new CSPO Segregated (SG) grade Olera® shortenings to its product line in 2016.

The company's directors have been directly involved in the development of sustainably produced palm oil since the beginning and will continue to support efforts to transform the supply chain; promoting the environmental, social and economic benefits of sustainable agriculture.

As members of the Roundtable on Sustainable Palm Oil (RSPO) since 2010, we have been working to inform and educate our valued clients and industry partners about palm oil and invite you to become involved in the next phase of our efforts.

We will be offering seminars, information and support on how sustainability can benefit us all.
