

**“Sourcing globally,  
serving locally”**

## **Natural Benefits of Palm Oil**

**Trans-Fat-Free**

Consumed for more than 5,000 years, palm has been called nature’s gift to the world. The natural benefits of palm continue to be discovered.

**Non-GMO**

Palm Fruit contains oil in the flesh as well as the kernel, yielding two distinctly different types of oil.

**Cholesterol Free**

This amazing tree has the highest energy yield and best energy efficiency ratio of any vegetable oil crop in the world. It helps meet the dietary requirements of over 3 billion people.

**Natural Source of  
Antioxidants,  
Tocopherols and  
Tocotrienols  
(Vitamin E)**

Palm Oil contains an equal proportion of unsaturated and saturated fatty acids, both of which are important to human health. This balanced composition allows for palm oil to be stable at high cooking temperatures without the need for trans-fat creating hydrogenation.

**Bland Taste and  
Odorless**

Like olive oil, palm oil is particularly high in cholesterol lowering monounsaturated fatty acids. Derived from a vegetable source, it is naturally cholesterol free.

**High Oxidative  
Stability extends  
the shelf life of  
finished products**

**Naturally  
semi-solid  
at room  
temperature and  
does not require  
hydrogenation**

**GLOBAL AGRI-TRADE**  
C O R P O R A T I O N

**Global Agri-trade** is a premier supplier of shortenings and oils offering custom solutions for your production needs. All products are manufactured in facilities audited under GFSI recognized food safety schemes. Shortening and oils are available in cubes, beads, and flakes. Packaging options include cubes, bags, drums, totes, and bulk tanks.

### **Global Presence**

Offices in Canada, USA, Malaysia, India, and Singapore. Our team provides exceptional service across North America.

### **Sustainability**

Roundtable on Sustainable Palm Oil (RSPO) member since 2010 with certified supply chain status. We offer sustainable palm oil solutions, products, and education.

### **Custom Formulation**

With our team of technical experts, we can formulate a solution for your production requirements with options that are Trans-Fat-Free, Non-Hydrogenated, Non-GMO, Plant Based, Vegan, Kosher, and Halal. We can offer custom formulations for coating fats, substitutes for cocoa butter, and hardstock for manufacturing shortening and margarines.
